

FREE-STANDING MOBILE ACCESS STAIR SYSTEM (FSMASS)

The Free-Standing Mobile Access Stair System (FSMASS) from Flexible Lifeline Systems® provides safe access for working surfaces up to 18'-3". The stair-step design provides safe access to and from work areas while carrying tools and each unit has two davit anchor points providing fall protection for two (2) users. Adjustable outriggers enlarge the base foot print to stabilize and level the system when in use and collapse into the base to create a small and mobile package for transportation.

FREE-STANDING MOBILE ACCESS STAIR SYSTEM (FSMASS)

Free-Standing Mobile Access Stair Systems (FSMASS) provide full stairway access to elevated work areas ensuring sure footing for users while ascending to and descending from the from the elevated work area.

CUSTOM DESIGNS

Available in a range of heights and wheel styles, the system can be ordered to meet your applications' custom requirements. An FLS engineer will work with you to ensure your Free-Standing Mobile Access Stair System is optimal for your work environment. Additionally, Flexible Lifeline Systems' inhouse fabrication facilities ensure FAST production and delivery of custom products.

OSHA COMPLIANT

Flexible Lifeline Systems' Free-Standing Mobile Access Stair System meets the applicable requirements of the standards set out by the following:

- 1) ANSI 14.3 Requirement for fixed ladders
- 2) OSHA 1910.26 Portable metal ladders
- 3) CSAZ11-M81 Portable ladders
- 4) OSHA 1910.23 Guarding floor/wall openings & holes
- 5) Manitoba Workplace Safety & Health Division Fall Protection Guidelines

WHY FLS?

Maximizing the fall-safety provided by the Free-Standing Mobile Access Stair System requires the proper harnesses, lanyards, and training.

FLS is your turnkey fall-protection provider.

One manager with total accountability guides your project every step of the way. Piecemeal competitors can't compare with FLS' turnkey costs and services.

FEATURES

- **Rugged Frame**
Constructed from powder coated aluminum and zinc-plated steel for corrosion resistance and maximum durability
- **Full Stairs**
Stair-step ladder design provides sure footing
- **Lightweight**
Easily moved by hand
- **Adjustable Height**
Optimizes utility

Stairway design for sure footing versus conventional ladders

Full length handrails

Rugged Aluminum Construction

Pin locking mechanism prevents accidental movement

Extended outriggers for stability

Pneumatic Wheels for outside use, asphalt surfaces, and long distances

Urethane Wheels for indoor use, clean areas, or painted floors

Each unit comes standard with two davit anchor points allowing 2 harnessed users to safely work at height

□ **18 Foot Stair System with Pneumatic Wheels**
adjustable for working surface heights of 10'-7" to 18'-3"
Part No. 4281221

□ **18 Foot Stair System with Urethane Wheels**
adjustable for working surface heights of 10'-5" to 17'-11"
Part No. 4281222

□ **15 Foot Stair System with Pneumatic Wheels**
adjustable for working surface heights of 9'-2" to 15'-5"
Part No. 4281223

Adjustable jacks for system leveling on uneven surfaces
