

## MOBILE ACCESS STAIR SYSTEM (MASS)

Flexible Lifeline Systems' Mobile Access Stair System (MASS) provides a portable means of accessing elevated work areas with a full stairway versus a conventional ladder. The stair-step ladder design provides safe access to and from work areas while carrying tools. A wide variety of options including railing, cages and anchor structures provide ground-up fall protection for your elevated work activities. Depending on the options, the Mobile Access Stair System can provide safe access to elevated work surfaces from 5'-10" to 15'-6".

## MOBILE ACCESS STAIR SYSTEM (MASS)

### The FLS Mobile Access Stair System

(MASS) provides full stairway access to elevated work areas ensuring sure footing while ascending to and descending from elevated work surfaces.

### CUSTOM DESIGNS

Available in a range of heights and wheel styles, the system can be ordered to meet your applications' custom requirements. An FLS engineer will work with you to ensure your Mobile Access Stair System (MASS) is optimal for your work environment. Additionally, Flexible Lifeline Systems' inhouse fabrication facilities ensure FAST production and delivery of custom products.

### OSHA COMPLIANT

Flexible Lifeline Systems' Mobile Access Stair System (MASS) meets the applicable requirements of the standards set out by the following:

- 1) ANSI 14.3 Requirement for fixed ladders
- 2) OSHA 1910.26 Portable metal ladders
- 3) CSAZ11-M81 Portable ladders
- 4) OSHA 1910.23 Guarding floor/wall openings & holes
- 5) Manitoba Workplace Safety & Health Division Fall Protection Guidelines

### WHY FLS?

Maximizing the fall-safety provided by the Mobile Access Stair System (MASS) requires the proper harnesses, lanyards, and training.

### FLS is your turnkey fall-protection provider.

One manager with total accountability guides your project every step of the way. Piecemeal competitors can't compare with FLS' turnkey costs and services.

## FEATURES

■ **Rugged Frame**  
Constructed from powder coated aluminum and zinc-plated steel for corrosion resistance and maximum durability

■ **Full Stairs**  
Stair-step ladder design provides sure footing

■ **Lightweight**  
Easily moved by hand

■ **Adjustable Height**  
Optimizes utility

*Full stairs provide sure footing versus conventional ladders*

*Pin locking mechanism prevents accidental movement*

*Full length ladder handrails*

*adjustable working height of up to 15 Feet*

*Extended outriggers for stability*

□ **Davit Anchor Points**  
Provides two davit anchor points allowing harnessed users to safely work at height Part No. 4231125

□ **6 ft Cage Package**  
Provides work area fall-restraint hand railing Part No. 4231150

□ **10 ft Horizontal Rail with Traveling Anchor Point**  
Provides a harnessed user hands-free fall protection to an extended work area Part No. 4231126

□ **Tripod Package**  
With Confined Space Entry Winch that centers on cage for confined space entry or rescue. *Cage Not Included* Part No. 4231120

□ **15 Foot MASS with Pneumatic Wheels**  
Adjustable for working surfaces from 8'-8" to 15'-6". Part No. 4281186

□ **10 Foot MASS with Urethane Wheels**  
Adjustable for working surfaces from 5'-10" to 10'-0". Part No. 4281187

□ **Outrigger Base Package**  
Stabilizes and levels system with adjustable Outriggers Part No. 4231151

□ **Pneumatic Wheels** for outside use, asphalt surfaces, and long distances

□ **Urethane Wheels** for indoor use, clean areas, or painted floors
